Ten Importers Protest.

The proceedings were instituted in June last by Mr. George Hamilton and George C. Cholwell & Co., of New York; W. J. Cruikshank, and others, trading as Mourilyan Heinman; Russell & Co., New York; Averill & Co., New York, and W. J. Butterfield, Great Britain, importers and dealers in tea. They protested against the exclusion of certain brands of teas from the United States. Besides the Secretary of the Treasury the members of the board of tea experts were also named as defendants in the peti-

The petitioners claimed that in March, 1961, the board of tea experts, under an act of Congress, prepared and submitted standards to Secretary Gage, and later he, claiming to act under the act of Congress referred to, and upon the recommendation of the board of experts fixed and estab-lished certain standards for the importa-tion of teas into this country. A letter from the chief clerk of the department in New York states that there is no special enactment in that city preventing the free passage of street cars on all occasions, but that such matters are regulated by the police as good judgment and the public welfare may demand. Mr. Francis O'Neill, superintendent of

police of Chicago, states that there is no special ordinance in that city covering the point in question, but he says that it is an old and established custom in that city out of respect to the dead, of street cars as well as all other vehicles not to treak funeral processions.

The acting marshal of police in Balti-

more writes that there is no law in that city compelling street cars to wait for funeral processions to pass. The superintendent of police in Philadelphia states that there are two ordininces requiring street cars to give way to funeral processions in that city. He

says that one of them imposes a penalty of \$5 for failure to stop a car for the of a funeral procession on its The other ordinance requires civic and military processions to stop every fifteen

of this request Mr. Davis says: "The appropriation last year, being included in the regular appropriation bill, but made immediately available, was for \$500. This was found to be insufficient for the purpose, a larger force being found necessary to do the work than we were enabled to employ with this sum. In consequence we have estimated for an inreased amount that will allow the employment of a force competent to finish the work in the allotted time-twenty

"About 5,000 lots are sold, which necessitates the preparation of this number of certificates of sale, which contain the date of sale, number of lot, and square, the name in which the property is as-sessed, the kind of tax sold for—general special, or water main; the amount of tax with penalty, interest, and costs; surplus if any, and to whom sold. Comparison must be made with tax ledgers of all the ms enumerated and a statement made of the same for record.

"In view of the fact that the amount asked for is included in the District ap-propriation bill, and that delay is prob-able in the passage of this measure be-youd the 'time when these certificates must be prepared, I beg to suggest that it be provided for in the urgent deficiency bill "In order to avoid the recurrence of

Taxes Not Mentioned in Certificat Lend to Complications.

The District Commissioners yesterday approved the recommendation of the Assessor that the principal of two installments of water main tax be received without penalty from the date of a certain tax certificate issued to the owner of the

property. It appears that the assessment was levied for the laying of water main in Q Street against sub-lot 62, block 3, West Eckington, in the name of Mr. A. W. Crittenden, who now makes application for the cancellation of the last two installments of the tax.

The Assessor in his report stated that the first and second installments of the tax had been paid, but that the owner had asked for relief from the payment of he balance with penalties from May 11

In transferring the accounts in the tax ledgers, this account was not carried over, and subsequently two tax certificates were issued on which this tax was not mentioned. The Assessor states that the committee appointed to revise the accounts of the department discovered this account and transferred it to the proper ledger.

Against the claim of the owner that he was led to believe the account can-seled on the strength of the tax certificates, the Assessor states that there ha een no transfer of the property, and that it does not come under the provisions of the law of May 13, 1892.

Mr. Snowden Ashford, the Inspector of Buildings, has forwarded to the District Commissioners a report upon the application of Mr. H. C. Busch, manager of the Hotel Fairfax, for a hotel license. Mr. Ashford reports that the building in

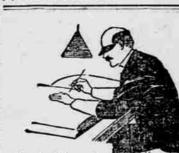

which the proposed hotel is located is a part of the old Willard Hotel. He states that the building is separate from the New Willard and that it is properly equipped with fire-escapes, lights, gongs, and other accessories of a hotel.

Mr. Ashford calls attention to the fact that a portion of the building was erected for an office under a temperory permit issued in April, 1990. He says that in this seemit the owner agreed to remove the
